

Computer Masters of Kansas City announces new partners

Support and Reseller Alliances created with Microsoft, Novell, IBM, Toshiba, Symantec and others...

Kansas City, MO, June 12th, 2006 – Computer Masters, LLC, Masters of Information Technology and the regions best and most unique technical support firm, today announced its rank as partner and/or reseller of cutting-edge technology vendors. The new partners are Microsoft Corporation, Toshiba USA, Novell, and Symantec. All of which are pioneers in high-tech products including hardware, software, and evolving technologies.

These partnerships represent the very best the technology industry has to offer businesses, Computer Masters wishes to utilize these strategic alliances and provide the best in products and support to the customer, said Mike Cleveland, Computer Masters Chief Technology Officer and majority owner. They each are unique partnerships, and Computer Masters can identify the benefits of each alliance and offer the customer what they deserve and usually settle for less with other firms. We can support all clients with the very best in hands-on expertise backed by manufacturer support, the customer should never settle for less. By utilizing the founders unique knowledge and experiences in high and lower level support infrastructures, our clients are assured a trustworthy support relationship backed by the largest technology vendors in the world.

About Microsoft

Founded in 1975, Microsoft (Nasdaq "MSFT") is the worldwide leader in software, services and solutions that help people and businesses realize their full potential.

About Toshiba Corporation

Toshiba Corporation is a leader in information and communications systems, electronic components, consumer products and power systems. The company's integration of these wide-ranging capabilities assures its position as an innovator in advanced components, products and systems. Toshiba has more than 166,000 employees worldwide and annual sales of over US\$47 billion in fiscal year 2002.

About Novell

Novell, Inc. (Nasdaq: NOVL) is a leading provider of information solutions that deliver secure identity management (Novell iSecure™), Web application development (Novell extend™) and cross-platform networking services (Novell Enterprise™), all supported by strategic consulting and professional services (Novell iNgageSM). Active in the open source community with its Ximian® and SUSE® LINUX brands, Novell provides a full range of Linux products and services for the enterprise, from the desktop to the server. Novell's vision of one Net – a world without information boundaries – helps customers realize the value of their information securely and economically. For more information, call Novell's Customer Response Center at (888) 321-4CRC (4272) or visit <http://www.novell.com>. Press should visit <http://www.novell.com/pressroom>.

About Symantec

Symantec is the world leader in providing solutions to help individuals and enterprises assure the security, availability, and integrity of their information. Headquartered in Cupertino, Calif., Symantec has operations in more than 40 countries. More information is available at www.symantec.com. VERITAS Software owned by Symantec, one of the 10 largest software companies in the world, is a leading provider of software to enable utility computing. In a utility computing model, IT resources are aligned with business needs and business applications are delivered with optimal performance and availability on top of shared computing infrastructure, minimizing hardware and labor costs. With 2003 revenues of \$1.75 billion, VERITAS delivers products and services for data protection, storage and server

management, high availability and application performance management that are used by 99 percent of the Fortune 500. More information about VERITAS Software can be found at www.VERITAS.com.
